

CONTENTS

- 167 Angelina Chugai, Oksana Dzhura**
Estimation of Technogenic Load on the Surface Water of the North-Western Black Sea Coast Region
- 174 Klaudia Mudrak**
Gaseous Emissions Purification with the Polymer Gas-Distributing Membranes Application
- 179 Myroslav Malovanyy, Volodymyr Mozghovyi, Oleksandr Kutsman, Serhii Baran**
Increasing the Efficiency of the Use of Thermal Power Plants Waste in Road Construction and Repair
- 185 Kostiantyn Dombrovskyi, Oleksander Rylskyi, Petro Gvozdyak, Kristina Krupeu**
Identifying the Potential of Using the Immobilized Microorganisms and Periphyton Organisms Installed on a Fibrous Carrier of the "Viya" Type For Biological Treatment of Industrial Wastewater Discharged By the Enterprises of the Mining And Metallurgical Complex
- 191 Larysa Hurets, Anastasiia Kotolevets, Hanna Miakaieva, Oleksandr Miakaiev**
Analysis of the Environmental Impact of Unsorted Cullet
- 197 Liudmyla Khokhlova, Dmytro Lukashev**
Assessment of Heavy Metal Contamination of the Technoecosystem of the Kakhovka Main Canal of the Kakhovka Irrigation System
- 203 Andriy Masikevych**
Conceptual Approach to Minimalization of Environmental Hazard For the Pokutsko-Bukovinian Carpathians
- 212 Tamara Dudar**
Uranium Mining and Milling Facilities Legacy Sites: Ukraine Case Study
- 219 Olga Sagdeeva**
Scientific Priorities of the Development of Environmental Research in Odessa National Academy of Food Technologies.
The Life Path of Professor Krusir G. V.
- 222 Serhiy Synelnikov, Khrystyna Soloviy, Ivan Tymchuk, Myroslav Malovanyy, Oleh Nahurskyy**
Improvement of Environmental Safety of Agricultural Systems As a Result of Encapsulated Mineral Fertilizers Implementation
