

CONTENTS

INFORMATION SYSTEMS, NETWORKS AND TECHNOLOGY

<i>Kovalyshyn O.</i> Neuro-fuzzy genetic algorithm of optimization of rehabilitation therapy plans	3
<i>Dudykevych V., Mykytyn G., Rebets A.</i> On the problem of complex security system management of cyber-physical systems	10
<i>Lytvyn V., Vysotska V., Kuchkovskiy V., Naum O.</i> Content integration and management method of information resources network of the city according to the end-user needs.....	22
<i>Berko A.</i> Big data models for e-commerce systems.....	37
<i>Lytvyn V., Vysotska V., Kuchkovskiy V., Olyvko R.</i> Architecture for the information system of the cryptocurrency content integration and formation on the basis of the exchange activity analysis	43
<i>Kravets P.</i> Game model of the system with authoritarian decision making.....	61
<i>Lobur M., Shvarts M., Stekh Yu.</i> Models and methods for forecasting recommendations for collaborative recommender systems	68
<i>Andrunyk V., Shestakevych T., Pasichnyk V., Kunanets N.</i> Information technology for students with autism	76
<i>Melnik M., Kernyskyy A., Rubacha Ja., Kamisinski T.</i> Development of the 3D premises model converter from the sketchup into the Catt-Acoustic system	89

COMPUTER AND MATHEMATICAL LINGUISTICS

<i>Vasyluk A., Basyuk T.</i> Intellectual analysis of transformation process of the algebra algorithm formulas	97
<i>Veres O., Ryshniak I., Tsyup'yak T.</i> Project of information system for the recognition of mathematical expressions	103
<i>Dosyn D.</i> The pertinency of information as the value of knowledge for an intellectual agent.....	111
<i>Tsymbal Yu.</i> Symmetric encryption scheme based on neural network	118

PROGRAM AND PROJECT MANAGEMENT

<i>Lytvyn V., Rybchak Z., Zavuschak I.</i> Methods and means of development of territorial communities in the direction of repairing roads	123
<i>Zavushchak I., Burov Ye.</i> The use of contextual graphs for decision support in recruiting	129
<i>Slukhaievska O., Zakhariya L.</i> Intellectual means in the employment syste.....	137
