

CONTENTS

<i>Bula S. S., Shnal T. M.</i> Charring depth of fire protected studs in timber frame wall assemblies exposed to fire.....	3
<i>Vozniuk L.I., Demchyna B. H., Surmai M. I., Artemenko V. V.</i> Using improved design method of sheer strength of reinforced concrete beams	12
<i>Volovetskyi V. B., Shchyrba O. M.</i> Construction of gas gathering pipelines for stable production of carbohydrates.....	19
<i>Hnidets B. G., Hnidets Z. B.</i> New prefabricated reinforced concrete carcasses for multistory buildings and technology of manufacturing and assembling.....	29
<i>Hohol M. M.</i> Indicators of energy efficiency of multicomfort houses	35
<i>Zhuk V. M., Mysak I. V.</i> Hydrographes from the impervious catchments using the SWMM method and the sector method.....	41
<i>Iliv V. V., Iliv Kh.-D. V.</i> Investigation of surfaces for the production of non-containers of absolutely silver	49
<i>Kaminskyi A. T.</i> The use of alkaline accelerator based on sodium aluminate in concrete technology	57
<i>Kapalo P., Klymenko H., Voznyak O., Zhelykh V., Adamski M.</i> Evaluating the state of sanitary and hygienic conditions in ventilated rooms.....	63
<i>Kachmar I. Z., Zhuk V. M.</i> Features of the use of pervious pavements for the stormwater management.....	68
<i>Koreniev R. V.</i> Influence of diaphragm on the stress-strain state and buckling of special-type arch systems.....	75
<i>Kotsiy Y. Y.</i> Method of selection of the scheme of movements of excavator's at arrangement a pit	84
<i>Kramarchuk A., Ilnytskyi B., Bobalo T., Barabash O., Lytvyniak O.</i> The influence of long term dynamic and vibratory loads on bearing structures of the ammonia refrigerating system building	89
<i>Kropyvnytska T.</i> Concept of eco-efficient nanomodified alkaline activated composite cements with high early strength.....	99
<i>Kushchenko V. M., Kanuk V. M., Lobodanov M. M.</i> Reinforcement of foundations of mine ventilator under conditions technogenic internal erosion through the soil foundation	108
<i>Melnyk I. V., Prystavskyi T. V., Sorokhtey V. M., Partuta V. P.</i> Hollow concrete blocks studies	114
<i>Menejlyuk I. O., Nikiforov O. L.</i> Optional calculation of construction payback under different organizational and financial conditions.....	125
<i>Onyshchenko A. N., Lapchenko A. S., Chyzhenko N. P.</i> Evaluation of contraction stress in cement concrete of road pavement.....	132
<i>Peretyatko B. M., Havrylko A. A., Bilinskiy B. O.</i> Analysis of flowsheets of kyanizing is in autoclave stoves.....	139
<i>Pozniak O. R., Lutsyuk I. V., Yakymchko Y. B., Melnyk V. M.</i> Prospects for production of heat insulation aerated concrete based on composite binders.....	146
<i>Salo V. Y., Salo O. Y.</i> Research of strength and deformativity of prestressed multi-span beam of length 18 m under different loading modes	154
<i>Sydor N. I.</i> Investigation of engineered cementitious composites properties.....	162
<i>Sobol Kh. S., Markiv T. Ye., Petrovska N. I., Hidei V. V.</i> Analysis of the efficiency of the use of granulated blast furnace slag in concrete	169
<i>Sobol Kh. S., Markiv T. Ye., Petrovska N. I., Hunyak O. M.</i> Activity of polydisperse mineral components and their role in formation of structure and strength of portland cements.....	175

<i>Solodkyy S. Y., Dumych I. Yu., Turba Yu. V.</i> Efficiency of road bases for concrete pavements from cement stabilized materials.....	183
<i>Flys I. Ya., Ivaniv V. V., Bihun I. V.</i> Cylindric nozzles with lateral inlets installed in distributive pipeline. Investigational bench for investigation of operation of nozzles.....	187
<i>Kholod P. F., Hnatiuk O. T, Lapchuk M. A., Mazurak A. V.</i> Construction of opera house foundations in Lviv	193
<i>Yurkevych Yu., Voznyak O., Savchenko O., Gulay B.</i> Application of room recuperators for ventilation of school apartments.....	199
