|--|--|
| <p><b>1 P. Tymoshchuk, S. Shatnyi</b><br/>Hardware implementation of parallelized fuzzy adaptive resonance theory neural network</p> <p><b>12 A. Holovatyy, V. Teslyuk, K. Kolesnyk, V. Tabala</b><br/>Development of digital compass based on AVR microcontroller and MEMS ACCELEROMETER-magnetometer module LSM303DLHC</p> <p><b>27 P. Kosobutskyy</b><br/>On the universal regularity of the numbers of generalized recurrence sequence and solutions to its characteristic equation of second order</p> <p><b>34 O. Belej</b><br/>The main cluster node formation in wireless sensory networks</p> | <p><b>42 S. Shcherbovskykh, T. Stefanovych</b><br/>Load-sharing accounting between the renewable communication channels of the system of three iot-devices connected by a triangle</p> <p><b>50 P. Kosobutskyy, R. Ferens</b><br/>Some features of the direct and inverse transformation of random variables</p> <p><b>61 M. Melnyk</b><br/>Development of a method for automated selection of sound absorption coefficient</p> <p><b>71 A. Zdobytskyi, O. Matviyiv, M. Lobur, T. Klymkovych, N. Bokla</b><br/>Portable system for sampling liquid atmospheric precipitation</p> |
