

CONTENTS

1	Ruslan Bachynskyy, Oleksii Chaku, Nataliia Huzynets A Software Service for the Garbage Type recognition Based on the Mobile Computing Devices With Graphical Data Input	23	Yuriy Shabatura, Maryna Mikhaliieva, Sergij Korolko, Liubomyra Odosii, Oleksiy Kuznyetsov, Vasyl Smychok Autonomous Cyberphysical Adaptive System Of Controlled Treatment And Water Composition Control
8	Sergii Hilgurt Parallel combining of different approaches to multi-pattern matching for FPGA-based security systems	30	Ivan Tritchkov Systematic Mapping study on verification and validation of industrial third-party IoT Applications
16	Dmytro Kushnir and Yaroslav Paramud The algorithm of cyber-physical system targeting on a movable object using the smart sensor unit	45	Myron Voytko, Yaroslav Kulynych and Dozyslav Kuryliak SH-wave scattering from the interface defect
