

CONTENTS

- | | |
|--|---|
| <p>1 Vavruk E., Popovych B., Popovych R.,
Program model of Reed-Solomon codes</p> <p>7 Vozna N., Davletova A., Nikolaychuk Ya., Gryga V.,
Improvement of multi-digital multiplying devices
structures in different theoretical and numerical bases</p> <p>20 Voloshyn M., Vavruk Ye.,
System of monitoring the state of subjects
under conditions of quarantine restrictions</p> <p>29 Horbachov Y., Pasternak I.
Software system for drug search in online mode</p> <p>38 Hrytsyk A., Klushyn Y.
Cyberphysical system of watering with remote control</p> <p>47 Klushyn Y., Tsapiak M.
Principle of construction of cyberphysical system
of control of work of the smart greenhouse</p> | <p>58 Kononenko R., Salo A.,
Cashless payment software module for self-service systems</p> <p>68 Kupinskyi A., Yurchak I.
Weather station for monitoring the microclimate
in the room on arduino platform</p> <p>80 Kushnir D.
Methods and means for real-time object recognition
accuracy increase in video images on ios mobile platform</p> <p>89 Paramud Y., Yanchynskyi A.
Computer system for alerting indoor microclimate critical values</p> <p>99 Puyda V.
Local web-server of telemetric system with modbus interaction sensors</p> <p>106 Chyhin V.
Creation of computer facilities for controlling
an autonomous aircraft with the use of remote cloud calculations</p> |
