

CONTENTS

- 1 Volodymyr Mykhaylenko, Valentyna Yurchenko, Oleksiy Antonov, Olha Lukianova, Zinaida Gil**
Advanced technologies for processing liquid waste of galurgical productions
- 7 Galina Krusir, Olga Sagdeeva, Alfred Tsykalo, Yuliia Vilhovska, Tatyana Shpyrko**
Improvement of purification technology of the liquid waste from fermentation production
- 15 Vasil Dyachok, Solomiia Mandryk, Serhiy Huhlych**
To the problems of wastewater treatment from mineral pollutants with the use of microalgae
- 21 Olga Tsvilynyuk, Liliia Telehii**
Application of salicylic acid in growing beta vulgaris l. plants in the context of sustainable agricultural production
- 28 Valeriia Lytvynenko, Alina Dychko**
Efficiency of application of the microbiological method of waste water treatment to remove hexamethylenediamine
- 33 Valerii Dmitrikov, Serhii Vakal, Viktoriia Vakal, Leonid Pliatsuk**
Apparatus-technological scheme of tin cans scrap recycling with obtaining technical products
- 40 Myroslav Malovanyy, Ivan Tymchuk, Iurii Balandiukh, Christina Soloviy, Volodymyr Zhuk, Maria Kopiy, Oleh Stokaliuk, Kateryna Petrushka**
Optimum collection and concentration strategies of hydrobionts excess biomass in biological surface water purifying technologies
- 48 Nima Norouzi, Zahra Nasiri**
Confusing problem of green architecture and false green architecture in mena region
